

BAUDOUDIN GENERATOR

WHY MARSZ:

FROM VISION TO REALITY

MARSZ Electricals Pvt Ltd is India's leading provider of alternative power solutions that include power generators and renewable energy solutions. Our vast expertise in the business has driven us to achieve excellence in supplying power generators and servicing customers across a wide range of industries.

From telecom and retail to government and defence, MARSZ enjoys a distinguished reputation for consistently delivering best in class alternative power solutions that are manufactured to international standards. Baudouin plants are ISO 9001, 14001 and OHSAS 18001 certified.

BAUDOUDIN POWERING YOUR SUCCESS SINCE 1918

For 100 years, Baudouin has designed and manufactured the highest quality diesel engines for power generation and marine applications up to 3150 KVA, a range that few engine manufactures can match. you expect reliability, durability and excellent total cost of ownership from Baudouin powered generators.

With global manufacturing facilities in India and France which are adapted to our customers needs, you can count us to deliver to your requirements on time and as per client specifications.

MARSZ DIESEL GENERATORS POWERED BY BAUDOUDIN ENGINES 250 - 2500 KVA

- Radiator Cooled/Heat Exchanger Electronic with HPCR technology, G3 Governing.

- Alternator Specifications: 1500 RPM. 50 Hz, 3Ph, Enclosure IP 21, H/F Class insulation, Voltage regulation +/- 1%

Standard scope comprising of:

Diesel Engine / AC Generator / Base Frame / Standard Control Panel / Radiator / Silencer / Battery & Battery Cable / AVMS / First Fill of Lube Oil / First fill of Coolant Dg Set Controller / Fuel Tank / Wiring Harness / Sensors.

One stop solution:

Customised power solutions, installation, commissioning, operations contract, AMC / CAMC, renting power , hybrid solution, Electric Board approval, Electrical options AMF / Auto Synchronize panel , CRM , NGR, NIS, VCB , Voltage Options, 415 V, HT 3.3 / 6.6 / 11KV, Cooling systems: Remote Radiator / Heat exchanger.

TOP 10 REASONS TO BUY

- International warranty with global network of 200 partners.
- Best fuel efficiency with low cost of ownership.
- 100 years of heritage, from humble beginnings in "Marseille", 1918.
- Highest block loading more than 50% capacity.
- Duplex type oil filter with electric pump.
- 24 / 7 pan India service support, faster pre & post sales service.
- Low lube oil sump capacity with 10% lower sump capacity.
- Leroy Somer / Stamford alternators, world class Deepsea / DEIF Controllers.
- Extended warranty. Terms and conditions apply.
- High pressure common rail system, more reliable and reduced stress on injectors, which helps to reduce wear and tear.
